

Letter to Presidents Joe Biden And Members of the White House,

Dear. **President Joe Biden.**

North Carolina, February 24, 2022

Blessed are the merciful. You will receive mercy (Matthew, 5:8).

The brutal World War II claimed more than 100 million lives by Communism. This is a painful lesson for the countries that were allies in World War II.

After the end of the Second World War in 1945, the member states reunited to form the United Nations Council and the Universal Declaration of Human Rights was born to protect basic human rights values for the whole world human mankind.

But communist dictatorship still exists and continues to suppress human rights, religious freedom and often causes hatred wars to invade small countries, especially against indigenous peoples in some countries ruled by the communist bloc.

In 1991, the world rejoiced because the communist bloc in Eastern Europe completely collapsed, the nations in Eastern Europe were liberated and enjoyed the values of freedom, human rights, and comprehensive economic and commercial development.

The world thinks that the Russian communist regime has completely collapsed like its Eastern European neighbors! But Russia deceived the whole world and only changed in appearance, inside, Russia and China quietly maintained their relationship and jointly developed communism called "Globalization" a strategy of developing communist ideology to rule the whole world.

Russia uses military means to invade Ukraine and some countries in Eastern Europe as part of a common plan between Russia and China. Even in Asia, China has similar plans for Taiwan, Vietnam, the Philippines, Laos, Myanmar, Cambodia, it's a matter of time...

If Russia occupied and controlled the entire territory of Ukraine. The United States, NATO, and the United Nations did not take any action to intervene or impose heavy sanctions on Russia. Then this is an opportunity for China to launch a war to invade countries in the Asia Pacific region, especially Taiwan and Vietnam.

In our view, it is possible that Russia was setting the stage for World War III to begin. We are concerned that the third world war will be devastating and cause heavy damage to all of humanity. All the resources, culture, economy, politics, technology age collapsed and humanity survived back to the era of the epoch.

For all mankind to live in love and peace. America remains the number one power forever. We send this letter to the President as a message and call on the President to do something to prevent the third world war to save humanity possible. Because nuclear war is the most feared thing for all mankind.

Best regards - Peace & Grace,

Rev. Cong Chinh Nguyen,

President – CPRVN & VPEF,
